JACKSONVILLE, ILLINOIS, TUESDAY MORNING, FEBRUARY 2, 1904

HOUSE DEBATES CANAL QUESTION

SPIRITED DISCUSSION EN- LIVEN THE SESSION

Administration Criticised by Mayer and Defended by Gros- venor—Senate Proceedings— Capital Notes.

Washington, Feb. 1.—Proceedings in the house to day were enlivened by a spirited discussion of the Panama canal question. Thayer (Dem., Mass.) declared the course of this government in Panama to have been contrary to provisions of the treaty with New Granada.

Grosvener (Rep., Ohio) made a vigorous defense of the administration and said the brightest star that shines in the pathway of the candidate of the Republican party is his course in the Panama canal question. He advised the Democrats to keep away from Panama as an issue.

While a bill proposing relief to an individual from operations of the act restricting ownership of lands in territories and the District of Columbia to American citizens was under consideration Hepburn asked the minority if they had changed front on this question and why they were not willing to support exemptions from operations of that act in view of the attitude they assumed at the time of its enactment.

Hartlett (Ga.) asked Hepburn if legislation in question was not passed when they had a Cleveland brand of Democrat rather than a Bryan brand, as Hepburn suggested, whereupon Hepburn advised the Democrats to return to the Cleveland brand.

"With the District of Columbia disposed of the house took up the diplomatic and consular appropriation bill, consideration of which was pending when the house adjourned.

Thayer's address on the canal question was a severe denunciation of the course of the administration in Panama, concluding with the declaration: "We want the canal and we shall have it, but we do not want it to the detriment of our good name, which is above all price, and we would have had it without the possibility of criticism of our conduct in procuring it had impetuous haste waited upon calm judgment and conservative action."

Grosvener II. reply made a vigorous defense of the administration and arraigned the opposition. He declared that 90 out of every 100 people in the United States "except mungwumps of Massachusetts" are unqualifiedly and enthusiastically in approval of the course taken by the president and said that if the president had not done just what he did do the minority "would be resorting to day with abuse of the president as unfit to represent a great nation upon a great question."

Continuing Grosvener said: "I believe Theodore Roosevelt placed a star in the crown of his administration brighter than it had been the good fortune of any American president in the last thirty years to have established. I believe it will go down to the last generation of our country's history as an administration of what one man can do to redeem the character of the nation from the possibility of the charge of imbecility and lack of courage in an hour of extreme peril and excitement. I believe that if the gentleman will put his ear to the ground just now and listen to the sounds that are coming from all over the United States he will hear a sound of endorsement of Theodore Roosevelt in this particular matter of the Panama question that will unsettle his views to the possibility of a Democratic victory in the coming election for president. You Democrats are in a position now, if you will call off a few more of your leaders and get rid of them, to give us a whole lot of trouble in the coming summer and fall. But do not come to us with an endorsement of any man's speech, whether representative or senator, that undertakes to condemn the United States in its action in the matter of the Panama canal. If you do this there will not be enough of you left to November to make a respectable funeral procession. The brightest star that shines in the galaxy upon the pathway of the candidate of the Republican party is his course in the Panama canal question.

COURT DECISION.
In sustaining validity of the railroad bonds issued by North Carolina and purchased by South Dakota the decision of the United States supreme court to day is considered an important one and as marking a new departure in ordering the sale of property in dispute in case of failure to satisfy judgment. Justice Brewer said there was "no reasonable doubt of validity of the bonds and mortgages in controversy" nor "question respecting the title of South Dakota to the bonds," and he asserted the jurisdiction of the court in cases brought by one state against another to enforce property rights. He added:

"We are confronted with the contention that there is no power in this court to enforce such a judgment and that such lack of power is conclusive evidence that, notwithstanding the general language of the constitution, there is an implied exception of actions brought to recover money. Public property held by any municipality, city, county or state, is exempt from

seizure upon execution because it is held by such corporation, not as part of its private assets, but as trustee for public purposes. . . . There is in this case a mortgage of property and sale of that property under foreclosure may satisfy the plaintiff's claim. If that should be the result there would be no necessity for personal judgment against the state. Equity is satisfied by decree for foreclosure and sale of mortgaged property, leaving the question of judgment out for any deficiency to be determined when, if ever, it arises. And surely if, as we have often held, this court has jurisdiction of any action by one state against another to recover a tract of land there would seem to be no doubt of jurisdiction of one to render a decree for the sale of personal property."

The bonds were presented to South Dakota for aid of the state university, with the end in view of prevailing upon that state to bring an original action in the supreme court, which action has now proved successful. There are about \$250,000 worth of other bonds outstanding.

DEBT STATEMENT.
The monthly statement of the public debt shows that at the close of business Jan. 30 the total debt, less cash in the treasury, amounted to \$915,022,543, an increase of \$311,663, compared with the preceding month. This increase is accounted for by a corresponding decrease in cash on hand. Receipts for January, \$11,588,370; expenditures, \$12,372,553. Increase in expenditures for the month is about \$5,000,000. A surplus of \$1,641,000 is shown for the seven months of the present fiscal year.

TREATY RATIFIED.
In executive session to day the senate ratified the naturalization treaty between the United States and Haiti. The treaty provides that citizens of Haiti who may be naturalized in the United States and then return to Haiti shall cease to be considered citizens of this country after an absence of five years. A letter was read from Secretary Hay saying that the special reason for the five-year provision was found in complaint from Haiti that under existing conditions some Haitians come to the United States and remain long enough to become naturalized, returning to their own country to foment trouble and then take refuge under their American citizenship.

ANSWERS INQUIRIES.
Attorney General Knox. In answer to inquiries whether the bill recently introduced in the senate to amend the interstate commerce and anti-trust laws so as to relieve forcing commerce from their operation and so enable contracts to be entered into in reasonable restraint of commerce, was introduced with the knowledge and support of the administration, replied "absolutely no."

In response to a question as to his views on the wisdom of the amendments he quotes the answer he made to a similar inquiry of the president a year ago when an effort was made for exactly a similar amendment, and makes reply at considerable length. He makes a number of objections to the proposed legislation and says it would virtually nullify section 5 of the interstate commerce law, which is the anti-pooling section.

CAPITAL NOTES.
The house to day passed a bill to amend an act to determine the sessions of the United circuit and district courts for the eastern district of Wisconsin.

The senate passed a bill permitting the building of a dam across the Mississippi river at Sauk Rapids, Minn.

PALMA WILL PUNISH RIOTERS.
Havana, Feb. 1.—Minister Squires to day called the attention of President Palma to action of rioters at Cienfuegos, who, continuing disturbances which broke out as a result of disputes over election registrars, yesterday vented ill feeling by clinging mud upon the escutcheon hanging over the entrance to the United States consulate, practically covering the escutcheon with mud and filth. The president said he deeply regretted the incident and added he would issue directions the culprits be arrested and punished.

COPPER DECISION REVERSED.
Butte, Mont., Feb. 1.—The Montana supreme court to day reversed the decision of Judge Clancy in the injunction suit of John McGinnis against the Boston and Montana Mining company. This is the suit which caused a shutdown of all Amalgamated properties in Montana last summer.

The decision is very voluminous and far-reaching. The substance is that McGinnis is a private individual and has no right to maintain action against the Amalgamated company doing business in Montana or on the point as to whether it is a monopoly; such action is only maintainable by the state; that under evidence in record the Amalgamated Copper mine inconsistent with the supreme court views. The decision will release the case is remanded for further proceedings from Port Arthur pronounced the Easton and Montana dividends, provided the supreme court does not grant a rehearing.

New York, Feb. 1.—William C. Whitney, former secretary of the navy, who was operated on for appendicitis, passed a very poor night and to day the surgeon said he was by no means out of danger.

Edwardsville, Ill., Feb. 1.—After being out twenty-four hours the jury in the case of Frank Greenhouse, on trial for robbing and after making the agreement with him, the witness said, he never saw him again until last summer, nine years after.

MISS BRYAN'S FUNERAL.
Lincoln, Neb., Feb. 1.—Funeral services for Miss Nannie Bryan were held this morning at the home of her sister. Later by Dr. O. Rowlands of Davenport, Iowa.

EXTRADITION REFUSED

Missouri Officials Fail in their Efforts to Secure Wm Zeig- ler of New York.

Albany, N. Y., Feb. 1.—Governor Odell has decided to refuse to issue a warrant for the extradition of William Zeigler, of New York, wanted in Missouri on the charge of bribery in connection with baking powder legislation in the legislature of that state in 1901. The governor bases his refusal upon an opinion just submitted to him by Attorney General Genneen, who holds that there is not sufficient evidence to show Zeigler was in St. Louis in April, 1901, when the crime is alleged to have been committed.

COTTON MARKET

New York, Feb. 1.—Speculation in the cotton market carried May and July cotton options above 17 cents a pound on the local market to day for the first time in twenty-nine years. Cotton has not passed 17 cents a pound in New York since 1874, when it went to 17 1/2. It touched 18 1/2 in 1874; 21 1/2 in 1875 and 27 1/2 in 1876, when the crop, as against 4,347,000 bales in the previous season, turned out only 2,974,000. The high price of war times, when the south was blockaded, was \$1.50 per pound in 1864. The rise on to day's market was secured in spite of heavier receipts and failure of southern spot markets (save New Orleans) to advance. There was the same wild and overburdened market here as on Saturday. Brokers despaired of executing their orders according to the book. There was intense confusion and an enormous volume of trading.

DENY MRS. MAYBRICK'S RELEASE.

London, Feb. 1.—Further investigation confirms the announcement made by the Associated Press yesterday on authority of the United States embassy here that Mrs. Florence Maybrick has not been released. Through her exact whereabouts have not developed it is certain she is still a prisoner.

NOT IN WINCHESTER PRISON.

In response to inquiry of the Associated Press regarding a statement made by the Sun, the governor of Winchester prison to night said positively that Mrs. Maybrick was not confined there.

The whereabouts of Mrs. Maybrick are variously announced in the newspapers as Cornwall, Alloway and seaboard for the United States.

The Chronicle, which is under the same ownership as Lloyd's weekly newspaper, the Journal, that on Sunday published the story of Mrs. Maybrick's release, declares the statement that she has sailed for the United States is untrue, and adds that she is still in England and that certain conditions attached to her liberation impel her to exercise great discretion in her attitude toward the public and for a time at least it will only be possible for her to acknowledge through the press her gratitude for the efforts of her sympathizers in obtaining her release.

The News says the whereabouts of the institution in which Mrs. Maybrick is recuperating is kept a profound secret, because she is still in the custody of the authorities.

"In fact," the paper says, "Mrs. Maybrick and her custodians are concealing their identity and this is necessitated by her being privileged to walk abroad with her female wardens. It is understood that after a period of rest she will return either to Working or Alloway prison to receive formal discharge on special license."

THE EUROPEAN SQUADRON.

Washington, Feb. 1.—The European squadron, composed of the Brooklyn, San Francisco, Machias and Collier Alexander, now in Turkish ports, has been ordered to sail for Culebra to join in combined naval maneuvers about to ensue. It is stated withdrawal of the fleet from Turkish waters is temporary and at the conclusion of maneuvers it will return strongly reinforced and prepared to make a more vigorous demonstration.

COLLISION IN UNION STATION.

Chicago, Feb. 1.—In a head-on collision to day in the train shed at the union station here between an incoming Alton passenger train and outbound Burlington passenger caused by a cloud of steam obscuring the view of engineers, F. O. Wells, switchman, was killed and Attorney P. C. Haley, of Joliet, probably fatally hurt. Miss Margaret Haley, organizer of the Chicago Teachers' federation, Elizabeth Ryan and John W. Nadehoffer were bruised.

URBANA DOCTOR ARRESTED.

Springfield, Feb. 1.—Dr. Charles A. Nichols, a physician of Urbana, was arrested to day and brought before the United States court, charged with sending obscene letters through the mails. He was arrested on complaint of Mrs. Susan C. Day, of Urbana, divorced wife of William A. Day, assistant United States attorney general at Washington, who charges that Nichols attempted to extort money from her. Nichols was released under \$1,000 bonds.

MISS BRYAN'S FUNERAL.

Lincoln, Neb., Feb. 1.—Funeral services for Miss Nannie Bryan were held this morning at the home of her sister. Later by Dr. O. Rowlands of Davenport, Iowa.

TAFT TAKES OATH OF OFFICE

SUCCEEDS ROOT AS SEC- TARY OF WAR

Honors Shown Former Secretary Root by President Roosevelt— Went to His Residence and Personally Bade Him Good Bye

Washington, Feb. 1.—At the war department at noon to day William H. Taft, of Ohio, took the oath of office as secretary of war in the presence of several members of the cabinet, general staff and a number of personal friends.

The president walked from the white house to the residence of former Secretary Root in Jackson square shortly before train time this afternoon personally to say good bye to the retiring secretary and Mrs. Root. As the president came up the avenue Troop F, Fifteenth cavalry, was lined up in front of the secretary's house ready to escort him to the station. The president went at once to the secretary's study, where he was soon followed by Lieutenant General Chaffee, chief of staff, and his assistants, Major Generals Gillespie and Bliss. Governor Taft, the new secretary, came a few minutes later. After ten minutes conversation the party emerged from the house. The president walked with Mrs. Root, whom he assisted into the carriage. He then with a firm grip of the hand bade the secretary a feeling farewell. After closing the carriage door himself the president turned and bowing to the crowd which had gathered, walked rapidly back to the white house. Secretary and Mrs. Root drove to the station, preceded by the cavalry and followed by the new secretary of war, chief of staff and his assistants. The extraordinary military honors shown the retiring secretary were done at the direction of the president.

FIRE PROOF THEATRE

Chicago, Feb. 1.—McVickers theatre, complete with safeguards against fire and loss of life, reopened to night, being the first playhouse to do since all were closed following the Iroquois theatre fire. Late this afternoon an aidemaitre committee, Building Commissioner Williams and assistants and Fire Marshal Musham made a thorough examination of the house and found conditions such as to permit the opening of the theatre. A sight which first met the eyes of the audience which assembled to night was the corrugated surface of the fire proofed steel curtain. The curtain was lowered between the acts. Scarcely less obvious were seventeen exits, nearly all ending in alleys on each side of the theatre, each exit marked in large black letters. Further to direct the audience, a gas jet with red globe burned each door. Aisles led directly to the exits, a reformation which cost the theatre 300 seats, chiefly in the balconies.

QUICK WORK.

Detroit, Feb. 1.—Joseph Mennier, alias Miller, who stabbed to death Mrs. J. T. Seville Saturday, pleaded guilty to day and was sentenced to imprisonment for life. He will probably be taken to Jackson to night, a convict under life sentence less than sixty hours after his crime was committed.

DAMAGE BY WIND.

Denver, Feb. 1.—High winds prevailed to day along the eastern slope of the Rocky mountains in Colorado and Wyoming and much damage to property was wrought. In Denver two men were killed by coming in contact with a live wire which had been thrown down by the wind. Reports from northern Colorado tell of destruction of farm buildings.

A passenger train on the Colorado & Southern railroad which left Denver this morning for Georgetown was wrecked by a gale at Georgetown, two coaches and a combination baggage and express car being blown over and badly demoralized. Four trainmen and one passenger were injured. Express Messenger Robinson may die of his injuries.

St. Louis, Feb. 1.—After having had the better of four rounds of fighting Harry Forbes, of Chicago, was knocked out in the first part of the fifth round by Abo Attell, of San Francisco, in their fight for the featherweight championship of the world to night. In the four preceding rounds Forbes surprised the spectators by his speed and clever work. Forbes not only outboxed Attell, but had him on the defensive in four fast rounds. Attell tried to mix with Forbes in the second, but was beaten off and compelled to cover up. In the third Forbes jumped in aggressively and put in two hard jabs to the face and tried to mix up. Attell beat him off, but was forced to cover up. In the fourth Forbes again rushed Attell and they mixed lively for a time. Forbes apparently had the better of the round.

At the opening of the fifth Forbes rushed at Attell, viciously, the latter sidestepping and allowing Forbes to fall against the ropes in such a position that he could not regain his feet quickly. While on the ropes with the top rope holding his head up Attell started a wild overhand right swing that landed on Forbes' face and Forbes rolled to the floor and was counted out.

ACCIDENT

Just as the first page of the Journal was being put to press this morning an unfortunate mishap occurred, resulting in the collapse of the form and as a consequence we are unable to present the usual full complement of telegraphic news.

BURNED IN HOME

Council Bluffs, Iowa, Feb. 2.—At 1 o'clock this (Tuesday) morning the residence of Peter Christiansen, Sixteenth avenue and Third street, was destroyed by fire, his five children, ranging from a babe in arms to 11 years, burned to death and Mrs. Christiansen buried so she will die. Her husband was in the country at the time. No one knows how the fire started.

The dead:
EDNA, aged 11.
FRANK, aged 8.
LINA, aged 4.
JANE, aged 2.
BABY, aged 5 months.

Just before 1 o'clock this morning Mrs. Christiansen woke up and discovered the interior of the house was in flames. She rushed to the room where the children were sleeping. That room was a mass of flames and it was impossible to gain entrance. She gave the alarm and neighbors attempted to save the house, but being frame it burned rapidly and was totally consumed before the arrival of the department.

The bodies of the children were cremated, only blackened trunks remaining. Mrs. Christiansen is terribly burned about the face and body. She says there was a fire in the kitchen stove, but it was low and this was the only stove and consequently the only fire in the house.

PHILIPPINE REPORT

Washington, Feb. 1.—The president to day sent to the senate the annual report of the Philippines commission, including the report of the governor of the Philippines and the reports of heads of executive departments for the period ended Dec. 23, 1903. The report contains a detailed statement of expenditures under appropriation of \$3,000,000 for relief of distress in the Philippines islands. Governor Taft says that at no time has there been less ladronism than when the report on the subject was written Dec. 10, 1903, and that semi-official statement saying telegraphic disposition of the natives is more favorable to securing independence through peaceful methods.

Governor Taft reviews at length negotiations leading up to the present status of the friars' land settlement. He says he is officially informed the number of friars in the islands is 246, compared with 1,042 in 1898. Governor Taft says: "Whatever may happen during the first few months of the coming of American bishops, it is certain the spirit of the American Catholic church is so different from that of the Spanish church from a political standpoint that the influence of the Spanish friars will gradually wane and that of the American bishops become controlling, bringing about that which we so much desire—Americanizing of the Roman Catholic church in the Philippines."

Taft considers the future of railroad and other public works in the islands very bright and says this will revolutionize the interior trade of the islands and have a marked effect on export trade. Only 10 per cent of the population of school age are attending public schools. He believes several millions should be expended in construction of schools.

Concerning the sultan of Jolo, who has repeatedly violated the Bates agreement and has forfeited American rights under it, General Wood's report on the sultan's violations of the agreement is appended. Wood says force seems to be the only method of reaching the Moros and beginning civilized restraints among them.

Washington, Feb. 1.—Samuel A. Groff, inventor of the street letter box fastener, contracts for furnishing of which are alleged to have been improperly obtained, to day took the stand in the postal trials and told how he conceived the idea of getting up the device and efforts made by him to find some one beside his brother to take an active interest in placing it before the government. The fastener had been adopted and an order for the Washington postoffice paid for, he testified, before Lorenz in 1895 proposed to work up sentiment in favor of it among postmasters of the country. The witness declared he never spoke a word to Machen about the fastener other than to admit in response to a question put by Machen

A EDITOR'S RECOMMENDATION.

Mr. H. J. Keeler, publisher of the Press, Maiden Rock, Wis., writes, "Allow me to say that I have recently used a bottle of Hart's Honey and Horehound and found it a valuable remedy for a cold or cough. I have personally recommended it in several cases and hear a good word from all. When our readers need a reliable medicine for Colds, Coughs, Croup and Whooping Cough there is no other so satisfactory as Hart's Honey and Horehound. Large bottles 25c and 50c. Sold by L. F. Alcott."

WASHINGTON LETTER

[Special Correspondence.]

When ex-Governor John D. Long, afterward secretary of the navy, was in congress, Colonel Pete Hepburn of Iowa, nicknamed the Massachusetts member Taffy. That name is still remembered by the older members, survivors of the Forty-eighth, Forty-ninth and Fiftieth congresses.

"As soon as Mr. Long came to the house," said Colonel Hepburn the other day, gazing at the long gallery of ex-speakers' portraits in the rear lobby where he was standing, "every member who undertook to deliver a speech was assured of an audience. Whenever one arose to speak Mr. Long took a seat immediately in front and listened with rapt attention. He would glue his eyes on the features of the orator. The speech concluded, Mr. Long would rush forward cordially, clasp the member frantically by the hand and congratulate him."

"I thank you ever so much for that speech," he would say. "I had serious doubts on several points of the subject you have been discussing. You have cleared them away for me. I am very grateful to you."

"Yes," replied Colonel Hepburn, "that is why I called Long Taffy, but do you know that he made a friend for life of every member to whom he listened so attentively and congratulated so warmly? There's a good deal of human nature in us all. We do like a little praise."

Unpopular Martyrdom.

Naval officers who happen to be on waiting orders are asking themselves who are to be the Mantonomoh martyrs. The Mantonomoh is a large monitor which has been lying disused at the League Island navy yard, Philadelphia, for many months. With the monitor Puritan she is to be fitted out for tropical service, and some of the "waiting orders" officers will be directed to take berths on her.

The opinion of every commissioned one from captain to midshipman is that there is small choice between hades and service on a vessel of the Mantonomoh type. Her upper deck is only about a foot above the water line, and with the least sea on everybody must stay below, where, if the thermometer ever marks a temperature below 100 degrees, officers and crew consider it cold weather.

The sharpest criticism is directed at the navy department for ordering the two monitors to the tropics, where they are to be used as guardships for United States coaling stations. Other vessels, it is asserted, would do as well, and on the other vessels there is occasional comfort.

A Magnificent Ornament.

One of the handsome crystal chandeliers taken from the east room of the White House before its recent renovation has been placed in position in the room of the committee on the District of Columbia of the senate. It was recognized as eminently proper that one of these handsome ornaments should go to the District committee. The chandelier is regarded as one of the handsomest of its kind anywhere. It is formed of English cut glass and contains 5,000 pieces, costing originally \$4,000. When it was hanging at the White House it was not wired for electric lighting, but before being placed in Senator Gallinger's room it was fully provided with attachments for electric fixtures and will contain forty-eight electric lights, with globes bearing the national coat of arms. There were three of these chandeliers at the White House, but the three have been taken to make one perfect piece, some of the parts having been injured. The chandelier is very generally regarded as superior to the chandeliers that have been placed in the east room since the remodeling and, in fact, is looked upon as possessing artistic and ornamental qualities of the highest order.

A Moro Arsenal.

The senate committee on military affairs has a Moro arsenal. On the walls of its room and adjacent to its long table there was arranged during the holidays a bristling collection of bolos, swords with fearful blades and wonderfully shaped knives which it makes one's blood curdle to look at. The centerpiece is a coat of mail fashioned of steel links. Another of the articles on exhibition is a thick helmet of brass, with large hinged flaps to protect the ears of the warrior.

The weapons come from the Mindanao region of the Moro country, which was penetrated last summer by Assistant Doorkeeper Alonzo Stewart. He secured them from a friend that they may be an object lesson on savage warfare to the military senators.

Wants Congress to Meet Earlier.

A bill introduced in the house by Mr. Shafroth of Colorado revives interest in a proposal frequently made to have each congress meet as soon after the biennial election as practicable. Under the present system, which has outrun its purpose, a congress elect does not meet for thirteen months, unless called in extra session. Mr. Shafroth proposes to have each congress assemble for its first or long session on the third Monday in January following the general election and for the short session on the first Monday after the first of

January in the year following. Precedent is a stubborn thing, and it will probably prevent the Shafroth bill from getting anywhere at this time, as it has blocked every preceding measure that had the same end in view.

Courts Martial in the Navy.

The annual statement of Judge Advocate General Lemly of the number of courts martial in the navy and marine corps during the past year shows that in the marine corps there were 200 and in the navy 785.

CARL SCHOFIELD.

FOR THE CHILDREN

Cinderella of Korea.

In Korea the people tell a Cinderella story that is much more ancient than that familiar to western people. The key of the latter story is the slipper, but not so theirs. Peach Blossom, the Korean Cinderella's name, was the family drudge. One day as the mother was starting off with the favorite daughter to a picnic she said to Peach Blossom, "You must not leave until you have hauled a bagful of rice and filled the broken crock with water." While sitting there bemoaning her hard lot she heard a twittering and a fluttering of wings. Looking up, she saw a flock of sparrows pecking the hulls off the rice. Before recovering from her surprise a little imp jumped out of the fireplace and so skillfully repaired the crock that but a few minutes of work was required to fill it with water. Then she went to the picnic and had a royal time.

On another occasion the mother said, "You must stay until you have pulled up all the weeds in the field." This time a cow came out of the forest and ate up the weeds in ten mouthfuls. Peach Blossom followed the cow into the woods and was led to where there was an abundance of ripe, luscious fruit. Gathering a large quantity, she went to the fete and was the most welcome guest. Her jealous sister asked about it and on being told determined she would get some of this fruit for herself.

When the next gala day came the sister stayed at home and let Peach Blossom go. The cow came out of the woods as before, and the sister followed it through tangled briar and thorn bushes, with the result that her face was much scratched and her skin deep beauty all gone.

Sweeping the Cobwebs.

In this game there must be an old woman of the sky with her broom, and two of the players must each hold the end of a skipping rope. The other players must stand in line.

The old woman says:
"I want a helper to sweep the sky.
Who can jump high? Who can jump high?"

She looks down the line and points with her broom to one of the players, who comes forward and stands in front of the rope. Holding out the broom, the old woman says:

"Take this, take this:
Be sure you don't miss."

The player takes the broom, holding it horizontally with both hands, and the rope is held for him to jump. He has three trials. If he takes them all he stands one side; if he fails the old woman beats him with the broom, and he is out of the game. When all the players have been tried those who have been successful have a final trial, and the one who can take all the jumps is selected to help the old woman sweep the sky.

This game is specially adapted for out of doors, and the more players the merrier.

Things You Never Hear.

A boy who swims may say he's swum, but milk is skinned and seldom skum, and nails you trim, they are not trum.

When words you speak, those words are spoken, but a nose is tweaked and can't be twoken, and what you seek is never soeken.

If we forget, then we've forgotten, but things we wet are never wotten, and houses let wet are not lotten.

The goods one sells are always sold, but fears dispelled are not dispold, nor what you smell is ever smold.

When young a top you oft saw spun, but did you see a grin e'er grin or a potato neatly skun?

What Tommy Should Say.

One day when small Tommy was called to the desk with his slate he accidentally stepped on his teacher's foot. She looked up, expecting a "Please pardon me," but Master Tommy was silent.

"Why, Tommy, what should you say?" she asked.

Tommy hung his little head.

"What should you say, dear?" Tommy began to cry.

"What should you say, Tommy?" persisted his teacher.

"I— I should s-say ouch!" sobbed Tommy.

The Child of a Poet.

Little Virgil Markham was being disrobed the other evening before the open fire in his nursery. His mother gave him his nightshirt and told him to hold it to the fire to air. She then left the room for a minute, but returned on the run as she heard the boy call out to the author of "The Man With the Hoe."

"Papa, is this shirt done when it's brown?"—New York Times.

NOTICE.

The weekly drawing at Groves' Grocery Saturday was largely attended. Mr. William Wayman, the holder of the lucky number, received a beautiful hand decorated dinner set of forty-seven pieces. We are always on the lookout for new cash customers and believe the wide-awake purchasing public will not be slow to appreciate the fact that this great distribution of Dinner Sets is an exceptionally strong bid for increased trade.

Call at our store at your earliest convenience, that we may explain our plan to you. Drawing hereafter will be on Wednesday.

Opera House Sunday—Large
Audience Present.

There was a large audience present at the opera house Sunday to hear the lecture on Christian Science by Mr. Norton. Miss Annie Bronson, who presided, in introducing the speaker, said:

"Friends—In behalf of First Church of Christ Scientist of this city I bid you a most hearty welcome to this afternoon's lecture."

"We as a people are seekers after health, peace, happiness and contentment. There is no subject that has been so little understood and so misrepresented as has Christian Science. It is not claimed that it is some new or strange religion, but the simple truth that Jesus taught and demonstrated."

The followers of this new-old religion are gathered from every class and condition of society; men and women of culture and refinement as well as those from the humble walks of life.

"Through the understanding of this wonderful truth the sick have been healed, the sorrowing comforted and the sinner has been reformed. Christian Science rests on the promises of the Master."

"Jesus said: 'He that believeth on me, the works that I do shall he do also, and greater works than these shall he do because I go unto my Father.'"

"I now have the pleasure of introducing Mr. Carol Norton, of New York, a member of the Christian Science board of lecturership of the mother church in Boston, who will now address us on 'The Meaning of Christian Science.'"

The following is presented from his address:

"Christian Science recognizes all that is true and beautiful in the great religious systems of the world, but at all times and under all conditions sees in the progressive career of Jesus Christ the manifestation of the spiritual idea, the type of the perfect man. Religion, in the light of Christian Science, is spirituality as opposed to Adamic materiality. Religion is universal right, truth, justice, freedom, liberty and love operating upon the minds of men, transforming, reforming, upbuilding and liberating from all that degrades, materializes or begets human discord, disease and ultimate death. According to Christian Science, religion is not necessarily embodied in the external visible manifestation of so-called religion; but at all times abides as the presence of the Holy Spirit in human affairs, the veritable Emanuel of God with us, bearing perpetual witness to the existence of the divine Immanence—God in His world."

"Christian Science is essentially Scriptural religion. In the language of the first of the six brief Articles of Faith its text book affirms, 'As adherents of truth we take the inspired word of the Bible for our guide to eternal life.' During its first third of a century's existence Christian Science has made the Bible the chief book in the lives of over a million individuals, and next to the Bible it places the Christian Science text book, 'Science and Health, with Key to the Scriptures,' by Mary Baker Eddy. Why? Because through the prayerful application of the teachings of this text book the spiritual significance of the Bible has again been discerned, as well as its regenerative message, has once again been proved capable of practical utility and daily demonstration in the healing of sickness and sin. Christian Science inculcates a dignified and lofty faith in the teachings and promises of holy Scripture. It substitutes a common sense understanding of the spiritual interpretation of the Scripture for the crude literalism that in its blind worship of the Bible has done perhaps more than anything else to obscure its real and practical meaning. Christian Scientists are close and conscientious Bible students."

"When it is remembered that the Christian Science churches, with their thousands of attendants, have as an impersonal past, two books—the Bible and the Christian Science text book, from a duly appointed man and woman read as church readers, and that of these books the Bible is given first place, cannot the following question be asked in simple justice to Christian Science? Any body of Christian believers ever paid a higher tribute to the great text book of Christendom than has the Christian Science church, under the leadership of its founder, Mrs. Eddy? This great and growing body enters the 20th century with personal preaching and personality displaced by the Word of God resident in the Bible and spiritually interpreted in its scientific sense through the provable truths of the Christian Science text book. The simple teachings of Jesus Christ as one continued discourse recorded in the four Gospels by his four students can be termed the Constitution of the Commonwealth of Israel. The recorded laws of life given by Jesus are the city laws of the New Jerusalem. The kingdom of God, or heaven Jesus taught came

Miss Nellie Holmes, treasurer of the Young Woman's Temperance Association of Buffalo, N.Y., strongly advises all suffering women to rely, as she did, upon Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—Your medicine is indeed an ideal woman's medicine, and by far the best I know to restore lost health and strength. I suffered misery for several years, being troubled with menorrhagia. My back ached, I had bearing-down pains and frequent headaches. I would often wake from restless sleep, and in such pain that I suffered for hours before I could go to sleep again. I dreaded the long nights as much as the weary days. I consulted two different physicians, hoping to get relief, but, finding that their medicine did not seem to cure me, I tried your Vegetable Compound on the recommendation of a friend from the East who was visiting me."

"I am glad that I followed her advice, for every ache and pain is gone, and not only this, but my general health is much improved. I have a fine appetite and have gained in flesh. My earnest advice to suffering women is to put aside all other medicines and to take Lydia E. Pinkham's Vegetable Compound."—Miss NELLIE HOLMES, 540 No. Division St., Buffalo, N.Y.—\$5000 forfeit if original of above letter proving genuineness cannot be produced.

not through material observation, but through the acquisition of mental righteousness and inward spirituality. It is a well known fact that scholastic Christianity is more Pauline than Jesus-like.

"In justice to Christian Science should it not be admitted that the regenerative and healing works that have followed in the train of the teaching of the Christian Science text book are ample evidence that it makes practical the promises of the four Gospels? Thus Christian Science is claimed to be both Christian and Biblical."

PROBATE COURT.
Conservatorship of W. T. Harmon, an insane person. Report. Hearing set for first day of next term.

Margaret Baptist vs. Antonio G. Baptist; trial of rights of property. Trial entered upon.

Estate of Wm. Wells, deceased. Petition of Mary J. Wells for letters of administration. Letters ordered.

CHARITY CONFERENCE.
The Illinois state conference of charities will hold its next session at Rockford, probably in the month of October, 1904. The exact date is to be fixed by the executive committee.

Frank D. Whipp, of Springfield, is secretary of the organization; Col. J. Mack Tanner, member of the executive committee; Col. Henry Davis, member of the committee on work being done for children; Judge G. W. Murray, committee on juvenile court work; Maj. J. E. K. Herick, member of the committee on care of epileptics; Dr. A. L. Converse, member of the committee on care of tuberculosis poor; and Dr. Wm. Jayne, member of the committee on county charitable and correctional work. These committeemen are all of Springfield.

A TEXAS WONDER.
One small bottle of the Texas Wonder, Dr. E. W. Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women; regulates bladder troubles in children. If not sold by your druggist it will be sent by mail on receipt of \$1. One small bottle is two months' treatment and seldom fails to perfect a cure. Dr. E. W. Hall, sole manufacturer, P. O. box 929, St. Louis, Mo. Send for testimonials. Sold by J. A. Obermeyer, City Drug Store.

READ THIS.
Jacksonville, Ill., Aug. 24, 1901.—For twelve years I have suffered from sweet diabetes, and have spent hundreds of dollars with various doctors, with but little benefit. I was recommended to try a bottle of Texas Wonder, all's Great Discovery, and will cheerfully testify to the public that it did me more good than all things else put together, and am altogether another man. I have persuaded many of my friends to try it.
JOHN E. DAVEY, Grocer,
J. A. Obermeyer, City Drug Store.

LIFE OF THE JAPANESE

Customs of Mikado's Subjects
Described by an American.

THE WOMEN ALWAYS GO HATLESS

Their Hair, Neatly Dressed, Is Adorned With Small Shell Ornaments or Flowers—Doctors Ask No Fees, but Expect Presents—Long Social Calls Are Good Form—Theatrical Performances Go on Forever.

Japan is a land minus many things that we think essential to life, says a correspondent of the Springfield Republican. There are no bakers and butchers. Rice takes the place of bread, meat and fowl, but fish in every imaginable form, cooked and uncooked, is eaten. Even the eyes do not go to waste. It would take no end of time to enumerate what Japan has not, such as beds, chairs, shoes, except wooden and straw shoes; bolts, locks, keys, wardrobes, washstands, etc. When one falls ill in Japan the patient pays for the medicine consumed. The doctor asks no fee, but expects a present. Theatrical performances begin in the morning and, like the brook, go on forever. The audience all come provided with food. Long social calls are good form, and one must always ask the age and income of his acquaintance. A woman's dress and style of hairdressing usually indicate her exact age.

A woman always goes hatless in Japan, and her hair is neatly dressed and adorned with little shell ornaments or a flower or two. Man in Japan, as throughout the east, is considered heaven-born, while woman is of the earth earthy, created to cater to his lordship's whims. A man expects his wife to be faithful and a good mother to his children. When he wishes entertainment or brilliant conversation he seeks it among the geisha girls in the tea houses, who are carefully selected for their wit, beauty and intelligence. They are the brightest, best informed and most accomplished of Japanese women. They are educated to entertain as conversationalists, mimics, actresses and musicians. Dancing in Japan is always done by hired girls, and courtship is done by proxy. A kiss is the height of impropriety, but semiknakedness and promiscuous bathing among men, women and children counts for nothing. It is only within recent years that a law forces every man to wear a loin cloth. The toiler in the field and the fisher on the sea seem to find it a superfluous garment.

The Japanese are veritable salamanders. Heat has no terror for them, and they usually bathe in water about 126 F. A Japanese bathroom is always open to as many as it can accommodate. As for privacy, lock and key are rarely found in a real Japanese inn or house. The bath is taken after this fashion: Every one proceeds, as Taffy said, to make himself clean by a thorough rubdown of soap and water, then a dash of hot water to remove all soap, then a soak of from five to eight minutes in the tank of boiling water. This same water answers for all and is kept hot by a charcoal fire beneath the tub. Bathing is a continuous process in Japan.

Japan is the land of small things. The little ones of Japan have heads and faces that resemble Dutch cheeses and seem always good natured and happy. In fact, it is called the land of the child's paradise. Everything is done for the wee tots, who tumble and totter about in their tiny clogs like animated, gayly dressed dolls. As they are gently touched by the hand of time the somberness of their dress increases as well as the elaborateness of their coiffure. Even these dear little ones are ceremoniously polite, always bowing low. The salutation, which is most ceremonious, consists in getting down on the knees, spreading the hands on the mats and bowing the face to the floor.

In their practices they allow themselves plenty of time, and I note particularly the absence of ruffians and rude horse play in a Japanese crowd. Many strange things strike one all over Japan. There are laws and regulations for every feeling and emotion. A bride wears mourning because she leaves her home and her parents. A widower mourns three months and then consoles himself with No. 2. A widow mourns thirteen months. One readily sees the difference in estimate of the loss of a husband or a wife, while the loss of a baby under three months is never looked upon as an occasion for mourning.

The most Japanese of all products in the empire is the lacquer. As the name of the country means lacquer, the cultivation of rice, and the whole land is cultivated like a garden. The year begins in the spring, when the feast of cherry blossoms, plums, wisteria, etc., gladden the hearts of the people. Then, all work stops, and every man, woman and child bows before the beauties of nature in her fresh loveliness, a homage that no other nation in the world finds time to bestow upon her in the mad struggle for existence. The cherry and the plum trees are cultivated not for their fruit, but for the perfection and beauty of the blossoms.

Some of the Japanese gardens are the most elfish affairs. For a thousand years the Japanese have propagated variegated plants and dwarf trees. Every man has his pet tree in his home interior tied and twisted into the most weird shape, an epitome of the great trees that grow under heaven's own blue, untouched by the transforming hand of cultivation and art. Every one in Japan, be he rich or poor, seems to have an inherent love for flowers. They are part of the people's life as well as the motive of their best art.

BURNED TO DEATH.

Awful Fate of Aged Mrs Keys in
Springfield.

Springfield, Feb. 1.—Aroused from her rest by the smell of smoke Mrs. A. J. Keys, of 323 North Fourth street, aged 50 years, arose from her bed Sunday night to find her room a fiery furnace, and before she could reach the door leading to the hallway she was overcome by smoke and fell against the door where she burned to death in the flames.

Fire was seen issuing from the roof of the house at 8:30 o'clock Sunday night, and by the time the firemen reached the house the contents of the room in which Mrs. Keys' body was found had been entirely burned and there is no cause to assign for the flames. No other part of the house was found to be burning and the fire did not do much damage to any part of the residence except the south room on the second floor, and that part of the roof directly over. The house is heated with a furnace and lighted with gas and electricity and it may have been caused from the furnace or a crossed wire, although the firemen were unable to discover the exact cause.

There was no one at home at the time the fire was discovered but Mrs. Keys. When her daughter-in-law, Mrs. D. C. Kearns reached the house she did not know that Mrs. Keys was there and stated that she thought that her mother-in-law was out. No one of all who stood around the place knew of the presence of the doomed woman in the house until it was too late to save her, and when she was finally removed from the ill-fated room, life was extinct.

OMAHA EXCHANGE OPENED.
Omaha, Feb. 1.—Promptly at 9:20 to day the Omaha grain exchange business. One hundred brokers were present. President Watters sold 5,000 bushels of May corn at 46 cents, at the same moment declaring the exchange open for business. Early trading was rapid and the corn market had a range of 1½ cents during the first half hour.

DAYS OF DIZZINESS

Come to Hundreds of Jacksonville People.

There are days of dizziness; Spells of headache, sideache, backache; Sometimes rheumatic pains; Often urinary disorders. All tell you plainly the kidneys are sick. Doan's Kidney Pills cure all kidney ills. Here is proof of it in Jacksonville: Veteran John Pyatt, who formerly lived at 335 West North street, said: "I was constantly annoyed with aches and pains through the loins and back and rheumatism in my arms and shoulder and too frequent action of the kidney secretions. Often I had attacks of vertigo and dizziness, particularly so if I stooped and attempted to straighten up quickly. All the medicine I tried did not even check the trouble, let alone cure, until I procured Doan's Kidney Pills at Dr. H. Lee Hatch's drug store. Besides disposing of my aches and pains the general tonic effects of Doan's Kidney Pills were remarkable. I recommend them very highly."

Footwear Novelty.
The latest novelty in full dress footwear is a band of diamonds carried across the instep of evening slippers.

Leap Year Nowadays.
And this is merry leap year, Time of all most blessed To timid, halting men whose fear Has kept their love all unconfessed.

Now can the maiden sweetly coy Urge on the bashful swain And all her pretty arts employ To bring him in her following train. Dear privilege—but nowadays 'Tis not as was of old, I ween; Maids may be fair in looks and ways, But if they have not golden sheen Their charms and arts are apt to fail. Only a baited, golden tipped hook Will catch the smallest titled whale. Especially a marquis or a duke. —New York Herald.

The prevention of consumption is entirely a question of commencing the proper treatment in time. Nothing is so well adapted to ward off fatal lung troubles as Foley's Honey and Tar. Sold by J. A. Obermeyer, City Drug Store.

A NEW TRUSTEE.

New Era: On Monday of this week Governor Yates announced the appointment of Col. John R. Robertson, of Jacksonville, as a member of our board of trustees to fill the vacancy caused by the resignation of Mr. T. M. King, of Paxton. Mr. King resigned sometime ago on account of the increased demand on his time owing to changes in his business. Our board is now made up of Mr. W. W. Watson, of Barry, Mr. F. H. Wemple, of Waverly, and Col. John R. Robertson, of Jacksonville. Mr. Robertson is one of the most prominent young business men of this city and is well known in banking and financial circles throughout the state. He is a director and cashier of the Jacksonville National bank, one of the oldest and most conservative banking institutions in central Illinois. Our institution and its patrons may well be congratulated upon the selection of Mr. Robertson as a member of the board as the careful business methods which have marked his successful career in banking circles and in other positions of trust demonstrate his great worth in a position of this kind.

CHAMINADE CLUB.

The Chaminade Music club met Monday afternoon with Mrs. J. P. Brown on North Prairie street. There was a full attendance of members. The corresponding secretary reported kind greetings to the club received from prominent music clubs in Sacramento, Cal., Vernon, Texas, Burlington, Iowa, Portland, Me., and other cities. An interesting program from German and Hungarian composers of the present time was rendered as follows:

- Bagatellen Dvorak
- Miss Cleary and Miss Green.
- a. Bolero, Op. 34 J. S. Bach
- Tramvay, Op. 9, No. 4 Richard Strauss
- c. Hungarian Fantasia Schlegel
- Mrs. Vasey.
- Love Song Brahms
- Mrs. Hopper.
- Ballade A flat Reinecke
- a. Sottly Through My Spirit Ring, Korbay
- b. Serenade Richard Strauss
- Miss Wharton.
- Csardas, Dance-Hongroise Joseffy
- Mrs. Orear.
- a. Barcarolle Nicode
- b. Toccata, Op. 115 Rheinberger
- Mrs. Halgrove.
- Oh Fair, Oh Sweet and Holy Cantor
- Mrs. Hayden.
- Symphony-A Rustic Wedding (first movement) Goldmark
- Miss Walker.

WHAT ARE THEY?

Chamberlain's Stomach and Liver Tablets. A new remedy for stomach troubles, biliousness and constipation, and a good one. Price 25 cents. For sale by all leading druggists.

GAVE A PARTY.

A very charming party was given by Mr. and Mrs. James B. Wood at their country home near Pisgah Thursday evening, Jan. 28. The moonlight and snow made a romantic setting as the guests in sleighs and sleds with their musical bells came over the country roads and gathered at 7:30 o'clock in their attractive home. During the evening delightful music was given on the violin, mandolin, guitar and piano, while games added to the entertainment as well.

In the dining room rich red earthenware, ferns and lighted candles in silver sticks made an attractive table. A fine supper was served later and it was quite past the wee sma hours ere the last good night was said, and again the frosty air rang with the echoes of the bells and laughter as the guests scattered o'er hill and dale to their respective homes. A number attended from Jacksonville.

JACKSONVILLE CIRCUIT.

There will be revival services every night this week at Shiloh. Let every interested person attend. We can come to meeting now although it is cold weather better than when the roads became muddy.

Our second quarterly conference will be held at Centenary church next Saturday afternoon at 2 o'clock.

Dr. Scrimger will preach at Shiloh next Saturday evening and Sunday morning. Communion service.

There will be regular preaching service next Sunday at Asbury and at Salem.

N. English, Pastor.

WEST JACKSONVILLE.

Regular services for Sunday, Feb. 7:

The Epworth league of Ebenezer will give a leap year social Friday evening, Feb. 5, at the home of Charles Patterson.

Revival meetings each night of this week at Point church. The friends of the community are urged to come and enjoy these gracious services.

The trustees of Ebenezer church are requested to meet Saturday, Feb. 6, at 2 p. m. at Y. M. C. A. rooms.

A. F. Franks to H. A. Hempel, lot 6, Franks' addition; \$185.

P. O. Hagan to A. and E. Hull, lot 68, Car Shops addition; \$60.

LICENSED TO MARRY.

John Akers, Murrayville, Jennie Rea, Murrayville.

ENTERTAINED FRIENDS.

Mr. and Mrs. J. R. James entertained a few friends Saturday evening in honor of R. R. Saffer of Kansas. Several hours were spent in music and games, after which all were invited to the dining room where dainty refreshments were served. At a late hour all departed hoping to spend many more such pleasant evenings.

FIX CONVENTION DATES.

Harrisburg, Ill., Feb. 1.—The Republican county central committee of Saline county fixed the date for holding a convention

to select delegates to the state convention for Saturday, Feb. 12.

Carroll, Ill., Feb. 1.—The Republican central committee of White county called a convention of delegates from the townships to meet in this city Feb. 2 to select delegates to the state, congressional and senatorial conventions. The factions are for Rose and Yates, with Lowden a strong favorite with both factions.

\$21.30 Jacksonville to Pensacola Fla and return via the Alton Feb. 9 to 14 inclusive account annual Mardi Gras celebration. Final limit, Feb. 20th with privilege of extension.

Feeling Pretty Well.

A well cooked dinner and good digestion make a man feel his best. Both good cookery and consequent happiness are insured by the use of "Ideal" coal.

"Ideal" coal makes a fire that can be depended on—heats the oven just right.

It's economical, too. "Ideal" is pure coal—no rubbish—no clinkers. We KNOW our "Ideal" coal is better than any other coal you ever burned.

We GUARANTEE that it will please you. Order some "Ideal" to day—you'll never go back to the old, unsatisfactory kind.

POLITICAL POINTERS

(Special to Globe Democrat).
Springfield, Jan. 30.—The effect of the
"love feast" on the fortunes of the gov-
ernatorial candidates is, for the most
part, too intangible to be reduced to writ-
ing. The bulk of the applause was carried
off by Yates, Hamlin and Lowden. Cer-
tainly no candidate for office could ask
for a more enthusiastic ovation than was
accorded Governor Yates at every point
in the meeting which called for any sort
of demonstration. Nor could Hamlin or
Lowden complain of any lack of cordiality
in the reception accorded them.

But it is generally conceded that the
man who secured the most positive re-
sults was Congressman Warner, whose
plea for peace, coupled with his unex-
pected and forceful rebuke of the "knock-
ers" was the most impressive feature of
the meeting. The cheers which greeted
his speech showed that he had struck a
responsive cord and he undoubtedly made
friends of hundreds who hitherto had re-
garded his candidacy with indifference.

It was made plain, in fact, all through
the meeting that the masses of the party
regard with disfavor all factional fights
which become a mere personal warfare.
Even Attorney General Hamlin, whose
friendly relations with Sherman are well
known, took occasion to administer a mild
rebuke when he said: "We are not here to
skin each other, but to promote har-
mony in the party."

Hamlin's speech threatens to change
somewhat his political relations with Sher-
man—not on account of the extract just
quoted, but by reason of what the attorney
general said on the subject of primary
elections. There is a story told to the
effect that there was an advance under-
standing between Hamlin, Sherman, and
Deneen as to what each would say on this
subject and it is charged now that Ham-
lin did not carry out his part of the agree-
ment. Both Sherman and Deneen took
the ground, in reply to the governor's plea
for an effective primary election law, that
no law is needed in addition to those al-
ready in force. What Hamlin said was
quite contradictory of this.

"In regard to primary elections to day,"
he declared, "There is not a law upon the
statute books of Illinois governing pri-
mary elections that is worth the paper
upon which it is written. If you are go-
ing to make a primary election law, make
one that can be enforced. Make a law
such as is now provided by the Australian
ballot system, and then you will have a
law that will do the work."

This has offended some of Sherman's
friends, who had expected the attorney
general to lend the weight of his own
opinion to the words of the McDonough
candidate. There is no probability, how-
ever, that Hamlin and Sherman will part
company to the extent of making future
combinations between them impossible.
It has been supposed all along that
eventually Hamlin, Sherman and Deneen
would concentrate their forces for one of
the three and that is still the probable
thing.

The "love feast" was prolific of talk of
prospective combinations. Of course, none
of these will materialize until the state
convention is at hand, but that is no bar
to speculation. No two of the candidates
are now closely enough allied to make it
certain that they will eventually amal-
gamate their forces. Yet it becomes clear-
er with each passing day that one of three
candidates—Yates, Warner and Lowden—is
likely in the end to receive all the votes
which their combined forces can command.
The place of Rose in possible combina-
tions is as yet unfixed. Usually he has
been counted an "organization" man. Yet
neither side is now quite sure of his po-
sition—and like the astute politician that
he is conceded to be, he is likely to keep
them guessing for awhile.

The report that Judge George W. Brown,
of Wheaton, following his resignation
from the circuit bench, would become a
candidate for governor, has occasioned no
uneasiness, apparently among other can-
didates. There is general skepticism here
regarding Judge Brown's intentions to
become a candidate. Some months ago, it
is known, he thought so seriously of it
that he sent a friend to Senator Hopkins,
in whose congressional district he re-
sides, Senator Hopkins, while expressing
the highest personal regard, said that he
was already committed to Governor Yates
and that he could give Judge Brown no
encouragement.

Such are the political conditions that
Brown could hardly expect to come to
the state convention with more than his
own county of Dupage back of him.
Under these circumstances Judge Brown,
it may be assumed, is too shrewd a man
to get into the fight. The real reason for
his resignation is probably that indicated
in his letter to the supreme court—the
inadequacy of a circuit judge's salary and
his ability to earn a much larger income
in private practice. It is said that he has
already completed arrangements for enter-
ing one of the leading law firms of Chi-
cago.

WEATHER AND CROPS

Wheat Has Been Helped Some
by Snow—Livestock in Good
Condition.

Springfield, Feb. 1.—The weather
bureau has issued the following spec-
ial crop bulletin covering the con-
ditions for the month of January:
Great vicissitudes of weather were
experienced during the month. The
average temperature was consider-
ably below normal. In the central
district the daily deficiency amounted
to nearly 4 degrees. The month
opened cold, with minimum below
zero over a greater portion of the
state. There was a decided rise in
temperature beginning with the
decade, which was followed by a se-
vere cold wave in the northern sec-
tion on the 25th, and the central and
southern districts were under its
influence by the 27th. Precipitation,
mostly in the form of snow, was well
distributed, and the measurements
were in excess of the seasonal aver-
age.

Wheat and rye in the central and
northern districts are in a normal
midwinter condition. Ample cover-
ing by snow was afforded during the
period of rigorous weather. In the
principal wheat growing section, the
southern district, the crop is very un-
even. Expressions of poor prospects
are made by many correspondents.
The crop is suffering from adverse
fall conditions when there was a pro-
nounced deficiency in moisture, and
the plant has not attained seasonable
growth. During the cold wave the
fields were generally well covered by
snow.

Corn is not being marketed freely.
There is a considerable proportion
that has not dried out well. The
opinion is freely advanced that high
grade corn will be scarce.

Pastures and meadows have been
well protected during the season, and
are generally promising, except in the
southern district. The healthy
condition of stock is generally re-
marked.

Conflicting reports have been re-
ceived with regard to injury by cold
to fruit trees. Some damage has en-
sued, confined mostly to peach
trees, but reports do not indicate a
considerable loss. In some locali-
ties apples are not keeping well.

BOARD OF EDUCATION

Regular February Meeting was
Held Monday Night.

BOARD OF EDUCATION.
The regular meeting of the board of
education was held at the city hall Mon-
day evening. Members Platt, Rutledge
and Whitmer being present. In the
absence of the president of the board Mem-
ber Rutledge was elected president pro
tem.

Under communications Prof. L. A. Ful-
wider reported that he had been appointed
by Superintendent F. A. Johnson to ex-
amine the new instructors, Misses Bloom
and Pitts, recently appointed at the high
school and that they had qualified.
Superintendent Webster reported as fol-
lows: "Fire drills have been ordered in
each ward and reports show that build-
ings are emptied in about one and one-
half minutes. I have personally visited
each basement and in some cases have
ordered rubbish, such as waste paper, old
rags, garments, etc., burned and base-
ments cleaned."

"Summary of enrollment: Boys, 1,107;
girls, 1,189; total, 2,296. Seven hundred
and thirty-six pupils were absent on ac-
count of sickness, 144 pupils were tardy,
three teachers were tardy, five teachers
absent. There were eighteen corporal
punishments and three suspensions. Pup-
ils neither absent or tardy, 463. Superin-
tendent's visits, 111; visits from the board,
20; other visitors, 158. Gain in enrollment
in January, 32."

Report of Truant Officer C. Schermer-
horn: Gentlemen: As truant officer for
the schools of the city I would submit the
following report of absent pupils for De-
cember-January: First ward, Jefferson,
11; Second ward, Lafayette, 21; Third
ward, Franklin, 14; Third ward branch, 4;
Fourth ward, Washington, 7; total, 57.

The officer reported much of the cause
of absence was due to sickness and
lack of proper clothing. From the shoe
fund twenty pairs have been furnished
and further contributions to the fund will
be very acceptable.

A bill of \$11,736.64 in favor of N. A. Buck-
ingham was allowed. It was for all work
done by him for the board during 1903 and
included the Fourth ward improvements,
new building and old, work on high
school and Third ward school buildings.

Coleman & Pierson were ordered to put
storm sash in the basement windows of
the Fourth ward building.
Adjourned.

THE NEXT BAND CONCERT

will be given Thursday night at Con-
servatory hall by the Jeffries band
assisted by Miss Anna Johnson, a
pupil of the School for the Blind,
who has a beautiful soprano voice.
The band will render the Semiram-
ide overture, a selection from Il
Trovatore, including the Miserere
with solos by Frank Wolter, cornet,
and Harold Johnson, euphonium,
and the anvil chorus; a descriptive
number entitled "The Tramp," with
a very startling train imitation; the
delightful novelette "In a Cosy
Corner," and closing with airs from
the Prince of Pilsen. Thursday,
Feb. 4th, is the date.

DAILY JOURNAL, 10c PER WEEK.

REPUBLICAN CONVENTION
FOR MORGAN COUNTY.

A Republican delegate convention
for Morgan county is hereby called
to meet in the circuit court room in
Jacksonville on Tuesday, Feb. 16,
1904, at 12 o'clock, noon, for the
purpose of electing delegates to the
state, congressional and senatorial
conventions, and the transaction of
such other business as such conven-
tion may choose.

The basis of representation for the
voting districts will be one delegate
for every twenty-five votes and frac-
tion thereof east for William Mc-
Kinley in 1900 and upon this basis
the various precincts and voting
districts will have delegates as fol-
lows:

McKinley Dele- gate votes.	gates.

The different committeemen are request-
ed to give ample notice of the time and
place of meeting of the primaries in their
respective districts. By order of the coun-
ty central committee,
JAS. H. DANKIN, Chairman,
W. M. MORRISSEY, Secretary.
Dated Feb. 1, 1904.

REPUBLICAN PRIMARY—NO. 8.
The Republican voters of District No. 8,
Jacksonville precinct, are requested to
meet together at the circuit court room in
the court house Thursday evening,
Feb. 11, at 7:30 o'clock, for the purpose
of electing thirteen delegates to the county
convention to be held Feb. 16.

Jas. H. Dankin,
Committeeman No. 8.

The Brute.

Bridge—I thought you would never
allow a lady to stand in a street car so
long as you had a seat to give her. I
noticed you sat all the way down last
evening notwithstanding there was a
lady hanging on to a strap.

Rhodes—I know; but that lady didn't
count. That was only my wife, don't
you know.—Boston Transcript.

An Old Saw Reset.
Scene, coal mine at Frostburg. Bally
mule attached to car refuses to contin-
ue forward service. Driver very anx-
ious to get there. Mule very anxious
not to. Driver changes mule to other
end of car.

Driver—Now, ye murderin' spal-
peen, back to the mines!—Baltimore
News.

The Real Thing.

"Are you sure he really loves you?"
"Why, of course. His proposal wasn't
the least bit romantic. He stammered
so I could scarcely understand him."

An Unfortunate Break.

"I don't see why she should have
fared up so merely because I asked her
if she and her husband had ever held
hands before they were married."
"You see she was a manicure artist,
and it was while she was operating on
him that they fell in love."—Chica-
go Record-Herald.

An Important Feature

Of this week's showing will be the new things Correct 1904 Spring Fabrics
in dress goods.

SEE THE NEW SCOTCH TWEEDS

Black Dress Goods Hew 1904 weaves at a discount. You would expect to
pay the prices we are now asking for the choicest of the
new weaves for 1904 next June, instead of at the opening of a season. The Values are
remarkable. Only through several big and fortunate purchases are we able to give
such a sale. Qualities, styles and variety in both the foreign and domestic goods that
would bring throngs of buyers at the original prices, being a very choice collection of
fashionable weaves

Iron Frame Etamines, \$1 00 yd

One of the many new lightweight fabrics, our regular \$1.25
grade, this week \$1.00.

Imported French Voile, \$1.00 yd

The season's choicest material for dresses and fancy skirts.
A very special value at \$1.00.

Crystal Ceepes, \$1.00 yd.

A beautiful black silk and wool fabric for real dressy wear.
Special value at \$1.00.

Extra, 50c Offerings

For this week we offer the following very special values:
42-inch black Melrose cloth, 50c yd; 42-inch black fancy Mel-
rose, 50c yd; 38-inch black French Voile, 50c yd.

Use good stationery, station-
ery with character in it that
will reflect YOUR good taste
and refinement. Such paper as
the celebrated Eaton Hurlbut
line is above reproach. Let us
show you what the world of
fashion uses or send you a
sample book and a brochure—
"Correct stationery and its
correct uses." They're both
free.

Announcement

Having sold an interest in my Dry Goods and Millinery business to my
former partner, Mr. J. W. Blackburn, I take this means to thank my many
friends and patrons for their liberal patronage and good will and trust the
new firm of Blackburn-Floreth Co. will enjoy an increased share of that
patronage.

William Floreth

We have purchased the stock of the popular cash Dry Goods and Millinery
house of William Floreth. It is the intention of both Messrs William Floreth
and J. W. Blackburn to devote their entire time and attention to same and
by larger stock, best possible attention and lowest cash prices, to merit an in-
creased share of the liberal patronage of this popular store.

Blackburn-Floreth Co.

69 East Side Square.

City and County

Maisie Pierson has gone to Decatur to visit friends.

Harry Heaton, of Ashland, was in Jacksonville yesterday.

The South Side Aid society will meet Tuesday at 2 o'clock with Mrs. Charles Corrington, 1221 Park place.

Mrs. Florence Epler Watkins, of Springfield, is in the city visiting her cousin, Mrs. F. J. Waddell.

Uncle John Crum and wife, of the vicinity of Litchfield, were trading in the city Monday.

John King has purchased the Pacific hotel barber shop from D. D. Thomas. Mr. King is an experienced and competent barber and no doubt will be given liberal patronage by the public.

A business meeting of the Wednesday Musical club will be held at the residence of Mrs. W. H. H. King on West State street at 2:30 p. m. The active members are urgently requested to be present, as business of importance is to be discussed.

Mrs. Bush, who has been here for several weeks in charge of the Barrios diamond sale, has returned to Chicago. The lady proved herself quite agreeable while there and made a number of friends who disliked to have her leave.

James A. Edds, of Pekin, general manager of the Illinois Guarantee circuit, was in the city Monday calling local Manager Roy.

Mrs. Abe Seymour, of Franklin, was in the city yesterday on her way to Manchester to visit her daughter, Mrs. B. F. Morrow.

Alderman Michael McGinnis made a business trip to St. Louis Monday. The Journal is informed that the trip was strictly business and that anybody who says the alderman went down to consult with any of the corrupt St. Louis law makers, of whom there are said to be so many, is a base prevaricator.

Oscar Petefish, residing near Litchfield, recently sold to Mr. Savage, owner of the elevator at Litchfield, 10,000 bushels of corn and has delivered pretty much all of it. It comprised two or three crops and brought 40 cents. Last year he was offered 47 cents for what he had on hand then, but held for higher prices.

Y. M. C. A. NOTES.

The World's Fair club was organized last night and the following elected as officers:

President—E. I. Whitlock.

Vice president—C. E. Jarrett.

Secretary—Homer Potter.

The club starts with fifteen members and promises to number forty within the next few weeks. Next Monday night Earl Richardson and Archie Ziegler will give a talk on "What Part Electricity Will Have at the Fair." One feature of the club will be the pledge whereby every member agrees to lay aside a certain sum each week until he is ready to go. A committee on transportation and one on hotel accommodations will soon be named.

DISSOLUTION NOTICE.

Williams & Co. have this day dissolved partnership by mutual consent. All debts due the firm are now due and payable to either of the firm, and all firm debts the same. Williams & Co.

BURIED IN RUINS.

Paterson, N. J., Feb. 1.—During a high wind to day the Summit Ice company's ice house at Stockholm was blown down and Andrew Puls and Edgar Boyd were buried in the ruins and killed. Four others were injured, two probably fatally.

CONVERSATION CLUB

Held Anniversary Meeting Monday at the Home of Mrs. Stryker.

"The lightsome countenance of a friend giveth such an inward delight to the house where it lodgeth, as proudest palaces have cause to envy the gilding" was fully realized by the members of the Monday Conversation club with their invited guests who met to celebrate the sixteenth anniversary of its existence at the home of Mrs. Henry Stryker. The arrangements for the meeting were in the hands of Mesdames J. H. Osborne, E. W. Bassett, Charles Ward and T. P. Laning, the officers of the club, and every detail gave testimony to their ability.

The parlors were prettily decorated with the club flower, the carnation and ferns.

Mrs. J. H. Osborne, the president, in a few well chosen words extended greeting to the guests and introduced Mr. Melville Kennedy, who sang in a charming manner two beautiful solos.

Roll call by the secretary followed and each member responded with an interesting item of news, as is their custom at all their meetings.

A song by Miss Gladys Osborne followed and like the former was well received.

The president then in her most agreeable manner spoke of our many pleasant anticipations. She said the Conversation club had for several months held in anticipation most pleasant the pleasures of this afternoon, not the least of which was to be an address by Dr. Sherzer, dean of the woman's department of Illinois college, an honorary member of the club. Dr. Sherzer in her inimitable manner carried us with her to the borders of a beautiful lake in the Tyrolean Alps, where she had spent with a friend some weeks of a pleasant summer. Her description of the scenery and the glimpses of peasant life in the valleys of those mountains were indeed charming. We felt that it was an hour well spent and were sorry to awaken from the beautiful dream and realize that we had visited, in spirit only, the very delightful places so vividly portrayed, had seen, not with the natural eye the picturesque manners, pleasures and attire of the peasantry.

Miss Carrie Dunlap then favored the audience with a violin solo and Miss Charlotte Stryker rendered in a most artistic manner a vocal solo.

The musical numbers of the program were given by sons and daughters of members of the club, and all were highly complimentary to the performers.

A social hour followed and delicious refreshments were served. The ladies all seemed loath to leave that most hospitable home and to realize that "another milestone was passed," another anniversary of our club had come and gone.

The members of the club are:

Mesdames—
E. W. Bassett, C. W. Brown,
J. H. F. Carriel, Joseph Clayton,
F. C. Coe, M. F. Dunlap,
J. H. Freeman, W. H. Hinrichsen,
J. A. Kennedy, M. D. Nolte,
J. H. Osborne, S. D. Osborne,
Frank Robertson, F. H. Rowe,
T. P. Laning, C. H. Ward,
Hugh Weston, Henry Stryker,
Webster, Stoops.

CARD OF THANKS.

John Blue and family desire to return sincere thanks to their friends, especially the Mod Carriers' union, for acts of kindness during their affliction.

THE NEW ROAD

Work on the Jacksonville & Concord railway is now almost completed, though progress has been slow during recent days on account of cold weather. The bridge gang is now at work at the North Main street crossing and will probably finish there to day or to morrow. The men are not able to work rapidly, as they are hampered by heavy clothes and numb hands.

General Manager Crane, of the J. & St. L., said yesterday that the first train, a freight, would probably go over the road Thursday. The passenger schedule will not go into effect until next Sunday. The J. & St. L. trains Nos. 1 and 2 will connect at Concord with the C., B. & Q. railroad. No. 1 will leave Jacksonville at 11:30 a. m., making direct connection with C., B. & Q. train No. 447 for Chicago. Beardstown, Galesburg, Rock Island and intermediate points; also for Minneapolis and St. Paul and all points in the north and northwest. No. 2 will leave Concord on arrival of C., B. & Q. train No. 48 at 1:25 p. m. and leave Jacksonville on regular time, 3:30 p. m.

It is a source of gratification to Jacksonville that the Jacksonville & Concord road is to be operated by Mr. Crane and his assistants as a part of the J. & St. L. The authority of the J. & St. L. officials will be extended to Concord and the offices will be maintained here just as at present. The business of the J. & St. L. has more than doubled under Mr. Crane's management and the facilities of the new road will further enlarge it.

Mr. Crane has decided on the name for the station which is located half way between Jacksonville and Concord. The station will be known as "Joy Prairie." The name is certainly one which will meet with public approval, as it seems fitting that a station so near the famous Joy Prairie neighborhood should take its name.

HARRISON'S WILL.

Indianapolis, Ind., Feb. 1.—Elizabeth Harrison, the posthumous daughter of the former president, has been suffering several days with an aggravated attack of measles and a card is now displayed on the residence warning persons of the existence of the disease. While the child, now 6 years of age, is very ill, the physicians predict she will recover unless she should catch cold.

Interest in the case has been aroused in some quarters by the fact that Mr. Harrison's will, which was drawn before the birth of the child, provided for the contingency of its birth by bequeathing to it \$125,000 when it should become of age, with the earnings for its support and education during its minority, but made no provision for the disposition of this money in the case of death.

Whether the mother would inherit before the son and daughter of the father by his first wife is leading to considerable speculation.

DRANK WOOD ALCOHOL.

Chicago, Feb. 1.—A number of colored men living in a rooming house on Dearborn street drank wood alcohol Sunday night and as a result three are dead, two dying and one is in a hospital with a faint chance for his life. They alleged they supposed they had purchased grain alcohol and that they did not know it was wood alcohol because the bottle was not properly labeled.

THE PARK COMMISSION

A Meeting at which Important Business was Transacted.

The park commission met last evening in the Journal office and formed plans for the perfection of the new park at Morgan lake and the grounds recently purchased near there for park purposes. The planting of more trees was postponed until fall, on the advice of parties versed in tree planting, as trees planted at that time seem to thrive better than when planted at other times of the year, and young trees would interfere with seeding.

On motion of Member Degen, seconded by Member Vasconcellos, the chairman, Mr. Nichols, was authorized to ask for plans for an amphitheater or pavilion for the grounds. There is a strong probability that this building will be erected the coming spring, so that the first long step toward making the park a place of amusement will have been taken. When this building is finished the park will not only be a pleasant place to drive through and rest in, but there will be no reason why our young people will have to go out of the city for amusement.

One of the most important acts of the commission was the appointment of Mr. Frank Kitner as superintendent of the grass planting and seeding of the grounds. There is quite a large part of the grounds which has lately been planted in corn and it will be necessary to seed this before putting it in grass and the commission are very fortunate to have a man of Mr. Kitner's experience in charge of this branch, one of the most important of the work.

The board is also considering the application of several gentlemen who have applied for the position of custodian, but this matter has not been decided yet.

It is with deep feeling of gratitude toward Mr. Kitner that the gentlemen of the commission are able to report that he has accepted the oversight of the seeding of the park without other remuneration than the knowledge that he is doing a good work for the city and the people which will do more than most anything else for the beautifying of the park.

Messrs. Degen, Nichols and Buckthorpe were appointed an executive committee to superintend the general work of the grounds and to keep the work going on.

The most important action of the commission by far was the naming of the park. This matter has been left until the present time, owing to the press of many other minor details. When the matter was brought before the meeting the whole commission, except the chairman, were in favor of the same name and the new premises for the play ground of the city will now, henceforth and always, be known as Nichols park. Without doubt, there is not a man, woman or child in the city who will not say that a more appropriate name could be found. A few generous hearted, public spirited men like Mr. Kitner and Mr. Nichols and the slow, conservative old village of Jacksonville will be on a par with the best parked cities of the state. If you can't give your money, give your time, your advice or any other serviceable thing to the commission and if they can use it you have done just so much for the advancement of the city.

Mr. C. W. Brown was present to report in regard to the survey of the park grounds and the plans for the bridge but had been unable to get the plans and specifications ready. Mr. Brown will have these details finished by the next meeting night and as soon as the weather permits the work on the grounds will be pushed to completion as far as the present conditions and finances will permit. It will not be long before the city will be proud of her play ground and have a place to rest after the hard day's work in town.

There being no further business, the meeting adjourned to meet again Monday evening at 7 o'clock sharp. T. H. Buckthorpe, Sec.

NOMINATE COCKRAN.

New York, Feb. 1.—W. Bourke Cockran was nominated as the Democratic candidate for congress in the twelfth New York district at the convention to night. The nomination is to fill the vacancy caused by the resignation of Mr. McClelland, now mayor of New York.

FOR SICK AND NERVOUS PEOPLE.

We have a cure for nervous and unsteady people, weak, fleshless people, and pimply, pale or sallow people; people who are troubled with loss of ambition, failing memory, depression of spirits, lack of confidence, nervous headache and wakefulness, all these symptoms are produced by weak nerves brought on by the watery condition of the blood. Make strong, rich red blood, and furnish food for the nerves is the way to stop the source of disease, and cure them is only a question of days. The best flesh and food builder is Dr. Gunn's Blood and Nerve Tonic, in tablet form to take at meal time. Sells at 75c a box or three boxes for \$2, at all druggists. People gain from 1 to 3 pounds of solid healthy flesh per week, by the use of this medicine. This is an indication that it is doing good. Lee P. Alcott, Druggist, east side square.

Save Money by Buying Between Seasons?

We will sell our remaining stock of Suits and Overcoats at a positive saving to you if you buy now.

We mean that suits now selling at 8.50, 10.50, 12.50 and 15.00 are worth one-third or more than these prices

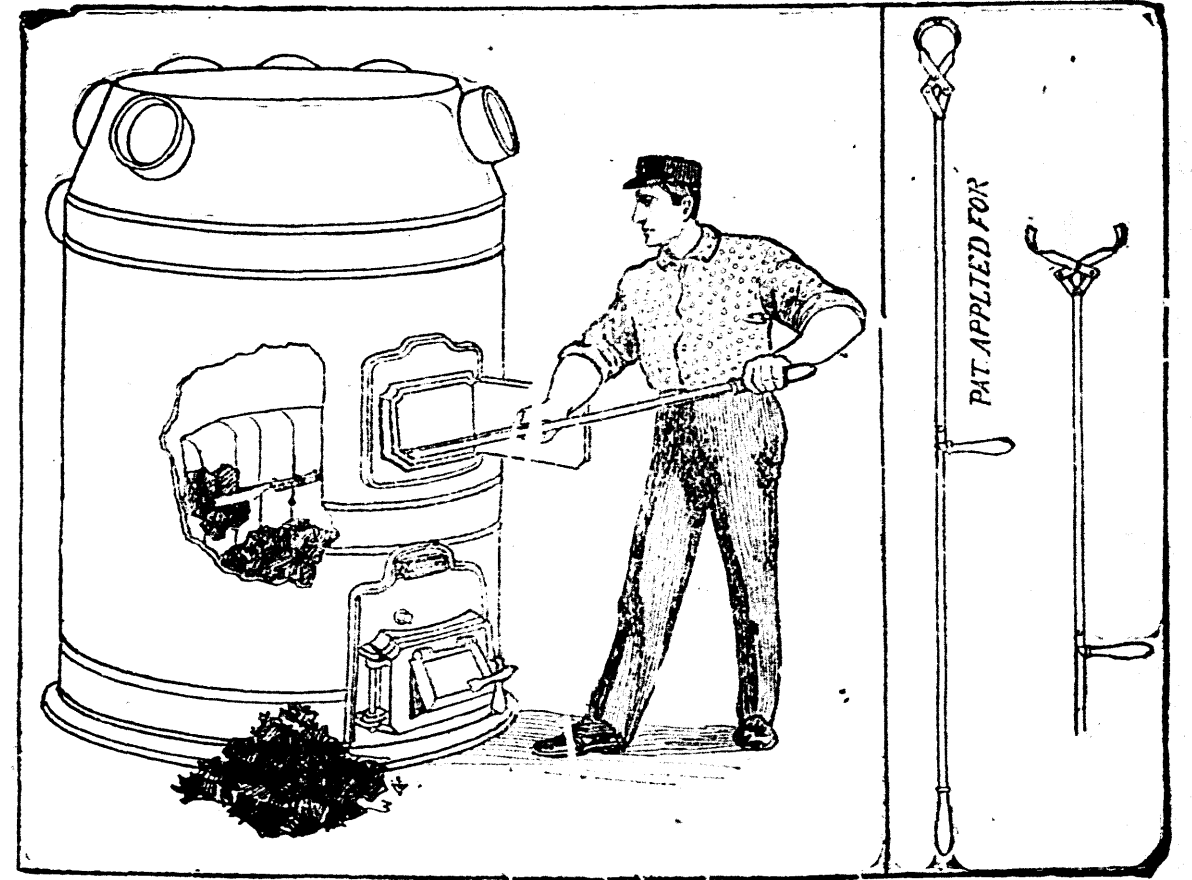

We also mean that overcoats now selling for 8.00, 10.50, 13.00, 15.00 and 17.00 are worth one-third or more than these prices. Between season prices apply to all Youths' and Boys' suits and overcoats.

BROOK & STICE

12 West Side Square.

Save your coal,
furnace, repairs,
time and temper,
at the same time keep-
ing your house
warm. It's easy to
accomplish all these
things by using the

Giant
Clinker
Tongs

The only certain device for removing CLINKERS from any kind of a furnace. So simple that a child can operate it.

The "Giant" is the embodiment of strength. Length 64 inches. Nothing to get out of repair.

DIRECTIONS—Raise the clinker to the top of the fire with the poker then remove with the giant tongs. No matter how large or how small the clinker, you will have no trouble in removing it without danger of being burned.

Those using wood furnaces will appreciate the advantages of the giant tongs in drawing the unburnt ends of wood to the front of the furnace, so all the ends can be burned. You would not do without it for double the price.

MATHENY & LLOYD.

(By Associated Press.)
Chicago, Feb. 1.—Wheat—Lower prices in foreign grain markets, extremely liberal world's shipments for the week and report from Minneapolis that there was a close on the market here to open lower, may bring off 1/2¢ to 3/4¢.

Commission houses and pit traders were liberal sellers and with little support prices declined still further. When May reached 82 1/2¢ the market became steadier on fair demand, supposed to be from leading long. Prices showed some advancement as result of this buying. May rallying to opening figure. Toward noon buying orders appeared from all quarters. The market responded to improved demand, May selling at 81 1/2¢. The mood was helped by decrease in visible supply. A report from Kansas stated that there was a little wheat left in farmers' hands. Weakness in Wall street, thought possibly to reflect fresh war news, was another strengthening factor. May and July came out freely on the bulge. On the decline May suffered most, declining to 80 1/2¢.

The market was firm the last half hour. May closed 1/2¢ better, July up 1/4¢. The visible decreased 82,000, compared with 68,000 decrease a year ago.

Corn—Strong feeling pervaded the pit more from lack of offerings than any prominent buying. The market was a little easier early in sympathy with wheat and lower cables. Reports from the country showed work continued to show good feeling demand and shorts showed some alarm over smallness of receipts. With advance in wheat corn became decidedly strong. There was some realizing on the upturn, but orders were strong. May up 1/2¢, closed 47 1/2¢. Strong, May up 1/2¢, Liverpool steady to 1/4¢ over. The visible increased 672,000, against 906,000 increase a year ago. The seaboard reported fifteen barge loads received.

Oats—Large trade and prices on higher level. Commission houses and shorts were active buyers throughout the day, but offerings were altogether too small for demand. Slight decline early in sympathy with other grains, but the dip was short-lived. Buying of May by the long interest precipitated a general rush by shorts to cover and rendered the market strong. Close was near the top. May 1 1/2¢ higher. The visible decreased 106,000.

Re-Shipments. 25,000. 11,000.
Flour, bbls. 25,000. 25,000.
Wheat, bus. 20,000. 25,000.
Corn, bus. 28,000. 104,000.
Oats, bus. 141,000. 18,000.

LIVESTOCK.
Cattle—Receipts, 25,000. Too heavy marketing for trade in its weakened condition opened weak in bad shape. Many state cattle were on hand and with fresh arrivals about 5,000 above the estimate and lack of cars still hampering buyers trade was more stagnant than it has been any Monday in months. Prices were above lower. Good to choice, \$1.00 to \$1.05; medium, \$1.00 to \$1.05; stockers, \$1.00 to \$1.05; cows, \$1.00 to \$1.05.

Hogs—About 48,000 arrived to day and with 10,000 carried over from last week supply was excessive and prices about 50¢ to 10¢ lower. Some light and mixed dragged on the market at lowest bids. Mixed and butchers, \$4.75 to \$4.85; good to choice heavy, \$4.90 to \$5.00; rough heavy, \$4.75 to \$4.85; light, \$4.50 to \$4.60; bulk of sales, \$4.75 to \$4.85.

Sheep—Receipts, 25,000. The market was slow and weak from the start with only a few fancy offerings selling at steady prices. Bulk sold at the decline, most lambs at 50¢ to 60¢ from best prices last week. Sheep, \$2.50 to \$2.65; lambs, \$4.25 to \$4.50.

ST. LOUIS MARKET.
St. Louis, Feb. 1.—Wheat—Cash, 85 1/2¢; 95¢; May, 85¢; 90¢; 95¢.
Oats—Cash, 40¢; May, 43¢.

LIVESTOCK.
Cattle—Receipts, 6,000. Market slow and lower. Beef, \$1.00 to \$1.05; stockers, \$1.00 to \$1.05; Texas steers, \$2.50 to \$2.60; Hogs—Receipts, 9,000. Market 5¢ lower. Range, \$4.00 to \$4.50.

LIVERPOOL MARKET.
Liverpool, Feb. 1.—Wheat—Spot nominal.
Corn—Spot American mixed new quiet at 4s 2 1/2d; American mixed old firm at 4s 6 1/2d.

NEW YORK MARKET.
New York, Feb. 1.—Wheat—Receipts, 80,000 bu. Spot firm; No. 2 red, 93¢ elevator and 94¢ f. o. b. afloat. Options closed firm at 94¢ net advance. May, 92 1/2¢.
Corn—Receipts, 50,000 bu. Spot steady; No. 2, 56¢ elevator and 57 1/2¢ f. o. b. afloat; No. 2 yellow, 55¢; No. 2 white, 54¢. Options closed firm at 56¢ net higher; May, 56 1/2¢.
Oats—Receipts, 78,000 bu. Spot strong; No. 2, 46¢; standard white, 45 1/2¢; No. 2 white, 45¢; track white, 47 1/2¢.

FINANCIAL MARKET.
New York, Feb. 1.—Interest in day's stock market centered in a handful of active issues which were moved by considerations special to themselves and having no bearing in general financial or business conditions. Dealings were insignificant and changes almost imperceptible. The primary cause of stagnation was undoubtedly realization sharpened by general review to last week's events in the market that the January boom had proved abortive and that speculative interests had balked at leadership seeking to attract it into the purchase of stocks. Closing quotations:

Money on call easy at 1 1/2% to 2% per cent; closing bid and offered at 2 1/4% to 2 1/2% per cent; six months at 2 1/4% to 2 1/2% per cent; prime paper at 4 1/2% to 4 3/4% per cent. Exchange weak. Demand at 48 1/2¢ to 48 3/4¢; sixty days at 48 1/4¢ to 48 1/2¢. Bar silver at 60 1/2¢.

VISIBLE SUPPLY OF GRAIN.

Chicago, Feb. 1.—The following figures show the visible grain supply to day, as compared with one year ago:

	1901.	1902.
Wheat, bus.	25,700,000	48,447,000
Corn, bus.	7,190,000	8,290,000
Oats, bus.	8,446,000	4,030,000

PERFECT CONFIDENCE.

Where there used to be a feeling of uneasiness and worry in the household when a child showed symptoms of croup, there is now perfect confidence. This is owing to the uniform success of Chamberlain's Cough Remedy in the treatment of that disease. Mrs. M. I. Bastford, of Poolesville, Md., in speaking of her experience in the use of that remedy says: "I have a world of confidence in Chamberlain's Cough Remedy for I have used it with perfect success. My child Garland is subject to severe attacks of croup and it always gives him profound relief." For sale by all leading druggists.

Individual Chicken Pies.

Individual chicken pies can be baked in deep saucers or in tins, but small stone china bowls are better. Cut up young chickens at every joint, making four pieces of the back and of the breast; cover with cold water and simmer until tender. Cover the bottom of each bowl with minced salt pork and lay upon this a piece of dark meat and one of light. Allow a bit of liver or gizzard to each also and tuck in two tiny parboiled onions or a saltspoonful of a minced onion that has been parboiled. Four potato marbles, also parboiled, come next and three small cubes of pastry. Thickened the liquor in which the chicken was boiled with a generous lump of butter rolled in flour, season with pepper and chopped parsley. The pork will furnish salt. Pour the gravy over the contents of each bowl up to the brim, cover with pastry, make a slit in the top and bake in a good oven. Cover with paper for half an hour, then brown quickly.

Four Course Dinners.

Four courses, if properly chosen and each one perfect beyond suggestion, should be enough to satisfy the most exacting epicure. With coffee and a smoke, such a dinner must be enjoyed by congenial spirits.

The importance of what we have to eat appeals much more strongly to men than to women, but the clever woman who through sympathy can fathom her husband's or friends' preferences will make herself a perfect wife and hostess.

The heavy soups that are so delicious are impossible to indulge in with a dinner of endless courses, while with a shorter one of, say, three or four they can be thoroughly enjoyed. Each dish should be so perfect, so alluring to the appetite, so nicely calculated as to combinations, that it cannot but be enjoyed from first to last.

The hostess who gives herself to their study will reap her reward. Her guests will be responsive, and all will be harmonious.

Healthful Hot Bread

Southern cooks are famous for hot bread, and their success is due to the use of the following recipe:

It makes hot bread wholesome and nutritious; makes it light and appetizing bakings is due to the general use of

THE EFFECT OF FADS.

None Escapes Fashion's Shackles, Says Chicago Professor.

DEPARTED WHIMS ENUMERATED.

George E. Vincent Tells Clubwomen in Chicago That Painted Rolling Pins and Croquet Have Left an Impression Behind—He Wants a Law Enacted on Handbaking.

Fashion helps to prevent social insanity. The large demand created by epidemics of fashion lowers prices. Some influence remains as a memorial to every fashion. Contagion of fashion makes for national unity. To ignore fashion is to declare oneself an outcast.

These are some of the things Professor George E. Vincent said recently in an address on "Fads and Fashions" before the Isiah Woman's club in Chicago. He declared further, says the Chicago Tribune, that "every one is bound in fashion's shackles; neither man nor woman is free."

"Men who are indifferent to fashion in clothes," he said, "are victims of fashion in something else."

In order not to make the women too prominent in his picture of fashion's servitors Professor Vincent characterized George Washington's fastidiousness as "a shining example of man's subservience to punctilio."

Not to be too flattering to fashion, the lecturer described the evolution of the dress sleeve from the short puffed sleeve of 1807 until it attained "the size of a dress skirt" and through its changes to the style that now is prevalent.

"It is a tentative psychological theory," he declared, "that only a certain amount of energy can be used and that this is distributed in such a way that what is lost in one direction is made up in another. This seems true of fashion! When all the energy was expended in bustle and crinoline the sleeves suffered. When the sleeves swelled the bustle and the crinoline disappeared. The sleeve now has started on another mad career, and no man or woman can tell where it will end."

Professor Vincent soon abandoned the dress question and talked of fads and fashions of all kinds. To show that they have lived and died he named the following among the departed:

Croquet. Painted dusters. The bicycle. Painted rolling pins. Tiddledwinks. Blue glass treatment. Pigs in the clover. Pingpong. Tennis.

Over these the lecturer inscribed the following epitaph: "They have all left their influence."

Among the living fads he named: Putting and lofting golf balls. The high modish handshake. The Gibson craze in art. The automobile. Appendicitis.

"All of you," urged Professor Vincent, "probably have experienced the humiliation of trying to shake hands with some modish person who places the hand at an impossible position and waits for you to find it. Congress had enacted a law requiring all railroads to make their train couplers the same attitude. Congress would do an excellent thing if it would fix the height at which persons should shake hands."

The changes in architectural fashions were dwelt upon by the speaker, who characterized Michigan avenue as "a museum of architecture, from the frame cottage, built immediately after the fire, to the French chateau of the millionaire." As an example of the slavery to fads Professor Vincent pointed to the rise and fall of the bicycle.

"We pick up our notions," explained Professor Vincent, "in various ways. We get opinions from others—strong personalities. We assimilate their ideas and accept them as authority. If we know a man to be well dressed by reputation we observe his dress, regard him as authority and imitate him. It is the same with everything as it is with dress."

The lecturer divided imitation into two classes—"reverential imitation," to express devotion for a leader, and "competitive imitation," expressed in social rivalry. As an example he pointed to the woman in society who tries to outdo her neighbor in society in prodigality. "This sort has reached such an exaggerated form among savages," declared the speaker, "that parents kill their daughters in babyhood to save her wedding expenses."

Professor Vincent urged every one to seek the company of superiors rather than of inferiors.

"To admit inferiority is one of the most disagreeable of necessities," he declared, "but it must be done if you are to improve yourself. It is the sense of inferiority that spurs us on."

Professor Vincent declared that the effort of American women to differentiate themselves has crystallized in the patriotic societies such as the Daughters of the American Revolution and the Colonial Dames. These societies he named in the same breath with the fads.

"To be a member of one of these organizations is about the surest way to avoid imitation," he said. "There can be no retrogressive measures resorted to in the matter of birth."

Jeweled Hose.

Smart women are always looking for something new, and their latest fancy is jeweled stockings. Turquoises sewed on bronze colored silk hose, with bronze like colors to match, are the favorites. Pink and green stones on any colored grounds, with shoes of the same shade, and iridescent lizards, beetles and reptiles embroidered on black are worn with black satin shoes. The latest of all are the white silk stockings worn in England. They are made all over with lace or trellised with embroidery.

Smart women are always looking for something new, and their latest fancy is jeweled stockings. Turquoises sewed on bronze colored silk hose, with bronze like colors to match, are the favorites. Pink and green stones on any colored grounds, with shoes of the same shade, and iridescent lizards, beetles and reptiles embroidered on black are worn with black satin shoes. FOR THE LITTLE ONES.

A Jolly Game For Boys and Girls Called "What Does My Lady Want?"

Word building, word guessing, geographical and other instructive games are all enjoyed by young people, but there comes a time when they wish and need something in the nature of a romp. A good game of this kind is played by seating the boys and girls around the room, with plenty of space in the center, and giving to each player the name of some article used by a lady when she makes her toilet—such, for example, as hairbrush, hairpin, shoes, bonnet, gloves, etc.

The players having been thus named, the leader, previously selected, takes his stand in the middle of the room, holding a wooden plate, a circular tray or any similar object that may be twirled around on the floor. To begin the game he twirls the plate on the floor as hard as he can and speaks some sentence in which he uses the name of one of the toilet articles. The player who bears that name must then leave his seat and try to catch the plate before it stops twirling. If he fails to do so he must pay a forfeit of some kind; if he succeeds he takes the twirler's place.

The twirler generally speaks a sentence like this: "My lady is going out, and she wants her gloves." The player whose name is "G

MANY DECISIONS

Were Reached at the Revival Services Sunday.

Many decisions were made at the meeting Sunday afternoon at State Street church among the young men and women present; also some of the maturer years. Mr. Jordan is quoted as saying he has not noticed anywhere such a large number of adults so concerned about their souls salvation. He spoke of "The Ideal Young Man" and referred to Daniel, Roosevelt, Lincoln and Gladstone as men who purposed in their hearts to do right and then did it.

At night many were turned away, being unable to gain admission. The theme for the service was "The Wages of Sin Is Death" and the evangelist spoke in a forcible manner of the surety of results and especially of a sinful life. At the close a number decided to lead a better life. Mr. Butts sang several selections, among them "My Mother's Prayer" in a very telling way.

Last night the house was comfortably filled to hear Mr. Jordan on the theme, "The Wages of Sin Is Death and God's Part in the Saving From Sin." Mr. Butts was never heard to better advantage than when he sang "The Holy City."

Meeting this afternoon at 3 p. m. and 7:30 to night.

DAILY JOURNAL, 10C PER WEEK.

A LONG CAREER.

Monday Joseph Tomlinson retired from active business which he has followed in this city for nearly half a century with but one interruption of a few months spent in Aurora.

Some months since the Journal had an extensive sketch of the gentleman which was quite interesting. He worked in various capacities, was for a while head tailor for E. & W. Weil, was at one time in partnership with the late John Goltra, but for many years has carried on business in the quarters now occupied by Tomlinson & Babb, the firm being Tomlinson & Son. When the firm of Tomlinson & Babb was formed Mr. Tomlinson was unwilling to lead a life of idleness, so he continued his merchant tailoring until now. His career has been long and honorable; no one stands higher in the community than he, for his word is his bond and his character above reproach. He has filled the offices of alderman and mayor with credit and has been a prominent member of Grace church for many years. He enjoys a home with his son, T. M. Tomlinson, and is a welcome member of a happy household, so that the remainder of his days bid fair to be passed pleasantly and hosts of friends hope he will be spared for many years. The part of the building occupied by him will be supplied with shelving and filled with the goods of Tomlinson & Babb.

NOTICE TO PATRONS.

Noah Brisendine, who was formerly one of my carriage drivers, is no longer in my employ.

Chas. Dalrymple.

Kalamazoo, Mich., Feb. 1.—On account of the heavy snowfall of Sunday the international ice yacht races have been postponed indefinitely.

CORONER'S INQUEST

A County Physician Held Responsible for the Death of Miss Murgatroyd.

The death of Miss Stella Murgatroyd has already been mentioned in the Journal. She passed from life Saturday morning and at that time pneumonia was given as the cause. Later, however, three physicians who attended her in her last illness signed a certificate stating that death was due to septic endocarditis resulting from a criminal operation. As the result of this and other evidence Coroner Reynolds last night issued a warrant for the arrest of Dr. W. C. Manley, of Franklin.

Acting on the instruction of Coroner Reynolds Sunday Dr. Edw. Bove as county physician made a post-mortem examination of the remains. A jury was summoned Monday morning by Coroner Reynolds as follows: C. H. Gilman, foreman; J. K. Long, clerk; J. O. Vosseller, F. W. Sibert, Lee Weigand and A. M. Upham. No evidence was taken Monday, but the jury will meet this morning at 9 o'clock.

It is understood that Miss Murgatroyd made a dying statement in which she gave the name of the man implicated and the name of the physician.

The case is a very unfortunate one as the young woman was highly respected and the family is greatly respected.

POLICE NEWS.

Chief Dunavan yesterday served warrants on Dan Keating and O. C. Henry charging them with operating slot machines.

THE DEATH RECORD.

WHITLOCK.

Bernice Whitlock, the 7 months old daughter of Mr. and Mrs. L. H. Whitlock, died Sunday night at 12:30 o'clock at the family home, corner of Morton and Goltra avenues, after an illness of three weeks from spinal meningitis.

The funeral will be held this afternoon at 2 o'clock at the home with services in charge of Dr. W. H. Musgrove.

LARGE.

James Large died Sunday at 2 p. m. at the home of his son, James, on South Main street. Mr. Large was born in 1822 in Newmarket, Tenn., and remained there until 16 years of age, when he removed to Greensburg, Ky., where he remained five years, at the end of which time he came to this place, which has been his home ever since.

He was married to Miss Anna E. Crows Nov. 23, 1845, and was the father of ten children, Mrs. Frank Johnston and Mrs. George Vickory, who died some years since; Mrs. Frank Barnett, of Decatur, Mrs. Charles Cox, of Springfield, Mrs. W. C. Ennis, Mrs. Harry Carroll, of Jacksonville, Thomas, of St. Louis, James, Edward and Harry, of this city.

His wife died May 4, 1880, since which time he has made his home with different ones of his children with whom he was always welcome.

Mr. Large was a faithful man, industrious and peaceable, always at work and never satisfied if not doing something no matter how little, so that he was occupied to the full measure of his strength. He was honest and kind to all and was much respected. He made a specialty of shade trees and many of the ornaments of this city are due to his industry and experience coupled with his good name. He will be missed by many who have known his familiar face for years, and his death is a loss to the community.

The funeral will be conducted at the home of James Large, 506 South Main street at 2 p. m. to day.

FRY.

Dessie Fry, aged 6 months, died at the home of her parents on South West street Sunday after a brief illness.

The funeral was conducted at the home Monday morning by Rev. H. H. DeWitt. Burial was in Jacksonville cemetery.

FUNERALS.

SHARP.

The funeral of Mrs. Emeline Sharp was held Sunday morning at 10 o'clock in Clark's Chapel with services in charge of Rev. J. T. Brown. Music was supplied by the church choir and the services throughout were of a very impressive character. The remains were interred in Jacksonville cemetery, the bearers being John Allison, William Allison, James Martin, Theodore Martin, John Samples and Theodore Samples.

MURGATROYD.

The funeral of Miss Stella Murgatroyd was held Monday afternoon at the family home north of the city and was very largely attended. The services were conducted by Dr. W. F. Short, who spoke very beautifully and impressively. Music was furnished by Miss Blackburn, Miss Ellen Daniels, C. A. Rowe and Ernest Walter. There were many flowers, which were cared for by Miss Richards, Miss Baldwin and Miss Brunk. Burial was at Ebenezer cemetery and the bearers were E. J. Eiler, L. W. Pate, E. J. Reed, H. Dyer, Otto Mapes and Charles Groves.

BLUE.

The funeral of Robert Blue was held Monday afternoon at Mt. Emory Baptist church, the services being conducted by Rev. H. H. DeWitt, assisted by Rev. Mr. Lewis and Rev. Mr. Lackey. Burial was in Jacksonville cemetery, the bearers being John Dameron, Charles Hogan, W. A. Johnson, W. J. Morrison, Ellis Moore and Charles Hobbs.

HALL.

The remains of Hamilton Hall, who died recently at Our Savior's hospital, were interred Sunday in Jacksonville cemetery.

WESTMINSTER MISSIONARY SOCIETIES.

The Home and Foreign Missionary societies of Westminster church met yesterday afternoon with Mrs. Ensley Moore.

At the close of the regular program the officers for the ensuing year were chosen with the following result:

For the Home society:
President—Mrs. E. M. Brown.
Vice president—Mrs. R. O. Stoops.
Secretary—Mrs. E. E. Webster.
Treasurer—Mrs. Frank Elliott.
For the Foreign society:
President—Mrs. R. R. Stevenson.
Vice president—Mrs. Slaten.
Secretary—Mrs. Cline.
Treasurer—Mrs. G. S. Russel.

VISITED SCHOOL.

Dr. James A. James, the official high school inspector representing the Northwestern university of Chicago, visited the high school here Monday and addressed the students at the chapel exercises. His address was a scholarly one and one of particular interest to the students, his subject being "Self Reliance and Independence." The high school here has been made a full accredited school.

LOOKED AT LAND

Alton Engineer Here Monday to Learn More of John Cherry's Offer.

William Elkins, of Chicago, one of the Alton engineers, was in Jacksonville Monday to inspect the 160 acres of land east of the city which Mr. John Cherry has offered to give as an inducement for the location of the Alton shops. The company is not satisfied with the conditions existing at the present location of the shops in Bloomington and with the understanding that a change was contemplated Mr. Cherry made the above offer.

Mr. Elkins looked over the land in a general manner and returned to Chicago on the 1:12 afternoon train. It is quite likely that later a number of the Alton engineers will be here to make a more detailed examination and also to consider other locations.

The Walsh farm north of the city is one of the places being considered and Mr. Cherry also has land south-east of the city which will be shown the engineer.

Three public spirited citizens have already offered to subscribe \$5,000 apiece for the location of the shops and to this amount in addition to the land Mr. Cherry has offered to add \$10,000. It is more than probably that \$100,000 could easily be raised for such a purpose.

It is understood that a further proposition will be presented to the Alton people. Namely that if they will be build the branch from Springfield to Sinclair, which has already been located the citizens of Jacksonville will extend the line from this city to Winchester at their own expense.

The location of the Alton shops in this city would be a splendid thing for Jacksonville and from the standpoint of enterprise the business men and citizens generally cannot be too liberal in offering substantial inducements. A shortsightedness policy some years ago lost the Alton shops that are now located at Roodhouse and a second mistake of such a character should be avoided.

There is no reason why this city should not in the near future become a division point for the Chicago, Burlington & Quincy and Chicago & Alton railroads, and it is certainly in order and high time that efforts should be put forth toward the accomplishment of both of these purposes. The liberal offer of Mr. Cherry shows that he has ever the welfare of the city at heart and it is hoped that the efforts he has put forth will result in something tangible.

BLOCKADE BROKEN.
